

SUSTAINABILITY CONSULTING

Fee-based consulting services and financing support for
businesses pursuing operational improvements

Offered by Business Impact NW, a nonprofit CDFI

How We Help Businesses

Reduce Operational Costs

We support businesses in reducing operating expenses through audits, technical assessments, and analysis of sustainability-related upgrades.

Rebates, Incentives & Certifications

We help businesses identify and navigate rebates, incentives, and certifications associated with sustainability upgrades that can improve financial performance.

Access to Capital

We provide affordable small business loans to support operational and resilience upgrades, aligned with consulting insights. Flexible rates.

Value for Businesses

Lower operating costs and advance performance, contributing to long-term operational resilience

Improve the reliability of systems and equipment, reducing operational risk

Strengthen market position, supporting business growth and local economies
